

# MODULAR CABINET

## Description

Thanks to an equipped wiring workshop, Anjou Automation is capable of meeting your specific modular cabinet requirements for greenhouse climate regulation.

From creating the wiring diagram to wiring, we propose a turnkey solution for your electric projects.

Specifications:

- Inclusion of C1MA/SA/AUTO boards
- Up to 12 boards for a standard module
- Bespoke configuration possible on request
- Interior door to limit accessibility
- Possibility of embedding a Maxiclim on the facade

Please contact us directly for any request for information or quotes.
