

BESPOKE INDUSTRIAL CABINET

Description

Thanks to an equipped wiring workshop, Anjou Automation is capable of meeting your specific cabinet requirements for sectors such as:

- Greenhouse climate management
- Agricultural irrigation
- Drainage
- Miscellaneous automation

From creating the wiring diagram to wiring, we propose a turnkey solution for your electric projects.

Compliant with applicable standards, our cabinets can be delivered with one of our regulators embedded in the facade.

Please contact us directly for any request for information or quotes.
