CAP0030

Watt/Lux  
CAP0018

Inside Temperature  
CAP0001

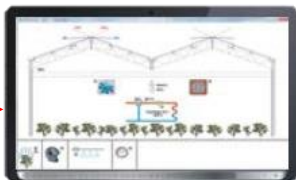

Inside Hygrometry  
CAP0004

## INTERIOR SENSORS

Compatible with  
existing Supervision

## DESCRIPTION

Same software functions as the Polyclim NG, the Maxiclim NG is fitted with 24 relay outputs.

It can therefore manage 3 zones with 8 outputs, 2 zones with 12 outputs or 1 zone with 8, 16 or 24 outputs.

The software functions are to be included in the choice subject to the 24 output limit.

3 models are available:

- Box version: mounted in a sheet metal box. 230V power supply and dry contact.
- Embedded version: in kit format for installation in a control cabinet.
- Box + power version (photo opposite): mounted in a sheet metal box. 400V THREE PHASE+ N power supply with main switch. 24 VAC outputs. Manual mode with switches.
