VENTILATED TEMPERATURE SENSOR

SPECIFICATIONS
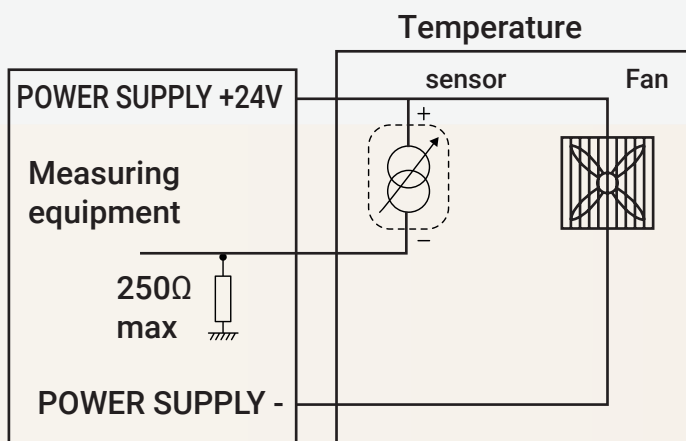

The sensor provides information on the ambient temperature in degrees Celsius

CAP0080.V

Assembly	Suspended
Cable type	3 x 0.22mm² conductors
Cable length	5 metres
Detection principle	Temperature: PT100 resistance
Power supply	24Vdc
Output	4/20 mA linear for -10/+60 °C

CONNECTION

Description	Colour
Power supply +	Blue
Power supply -	Yellow
4/20mA temperature signal	White

MAINTENANCE

For optimum detection, the sensor must be protected during treatments.
